

ASSIGNMENT SKILLS

APA 7th sample reference list

Last updated July 2022

Please check the assignment formatting requirements for your individual unit as they may differ from the advice provided in the APA manual.

- Begin the reference list on a new page after the text
- Place the label References in bold, centred at the top of the page
- Arrange the list alphabetically by the first author's surname or organisation name. Where there is no author, use the first word of the title (other than A, An, or The)
- Double-space the entire reference list (both within and between references)
- Apply a hanging indent of 1.27cm to each reference list entry
- All DOIs and URLs should be presented in their resolved form (e.g. beginning with <https://...>). It is acceptable to present these links as live hyperlinks or as plain text, so long as you are consistent throughout your reference list
