Chicago 17th B sample reference list

Last updated February 2021

Please check the assignment formatting requirements for your individual unit as they may differ from the advice provided in the Chicago manual:

- Begin the reference list on a new page at the end of your work, preceding the index
- Arrange the list alphabetically by the first author's surname or organisation name. Where there is no author, use the first word of the title (other than A, An, or The)
- All titles should appear in headline-style capitalisation (where each significant word is capitalised)
- Use a hanging indent for each reference
